

December

What to see?

1. Look out for Mistletoe and Holly plants as well as Robins. You can see pictures of these plants and bird on the Christmas cards people send each other in December.
2. Find a perfect frosty spider's web. Did you know that only half of all spider species catch their prey in a spider's web?

To do:

1.  **COLLECT SOME PINECONES OR HOLLY** with your family and make your own decorations.
2. **IDENTIFY SOME ANIMAL TRACKS IN MUDDY GROUND.** Use this guide to find out who has been heading your way?
